RE: Proceeding No. 15-149

Dear Chairman Wheeler,

For more than sixty years, the North Dallas Chamber of Commerce has taken an active role in promoting economic development and a better quality of life for all the people of Dallas. Each year, the Chamber hosts a variety of forums, workshops, and outreach programs on a diverse range of issues – education, transportation, infrastructure, and technology, to name a few – to help our civic and business leaders make the best possible decisions about the future of our great city.

As a long-time member and generous supporter of the NDCC, Time Warner Cable has been a valued partner in the Chamber's work. It has played a leadership role in supporting the Chamber's annual Technology Conference, which draws members and guests from throughout the Dallas-Fort Worth Metroplex to participate in informative and engaging conversations about how technology is changing not only the way we do business, but the way we teach our children, the way we plan our cities, and indeed, the way we manage our lives. This is but one example of many of how Time Warner has been, and continues to be, an exemplary corporate citizen.

The proposed merger of Time Warner Cable, Charter Communications, and Bright House Networks, now being reviewed by the FCC will, if approved, have the potential to alter the landscape of the digital communications industry for years to come. While the NDCC does not have a position on the merits of the proposed merger, we do wish to let you know that we are deeply appreciative of the high level of civic engagement that Time Warner Cable has demonstrated in the City of Dallas. We have no doubt that this spirit of service will continue to characterize any future business endeavors in which Time Warner Cable or its successor organization participates.

Sincerely,

A handwritten signature in blue ink, appearing to read 'BRAD', is written over the word 'Sincerely,'.

Bruce R. Bradford
